

For Immediate Release

DMM Kariyushi Aquarium Completed the Construction Design and Reveals New Exterior Images

Japan (May 27th 2019) - DMM RESORTS Co., Ltd. ("DMM RESORTS") announces that the construction design and exterior images of DMM Kariyushi Aquarium have been completed.

▲ Exterior image

DMM Kariyushi Aquarium is due to be located in the premises of the shopping mall, currently under development by Daiwa House Industry Co., Ltd., near Chura Sun Beach area, in Toyosaki, Tomigusuku-Shi, Okinawa Prefecture. The area enjoys great access with approximately 20 minutes* drive from the hub airport of Okinawa, Naha Airport.

The building housing DMM Kariyushi Aquarium is a three-story unit, of which the ground and first level (total floor area: 6,937.9 m² (2,102 Tsubo)) are due to be occupied by the aquarium. Symbolic colors and icons of Okinawa will be adopted in the facility design. The aquarium aims to attract 2,100,000 visitors in the first year.

DMM Kariyushi Aquarium bears the theme of a "new entertainment aquarium", which combines the latest visual expression and spatial representation. "Okinawa's clear ocean", "rich rainforests covering islands", and "the nature formed by subtropical environments" are merged with a

variety of marine life, flora and fauna. Together with carefully selected visuals and audio, the aquarium aims to deliver an entirely new resort space, where the excitement of a theme park and relaxed atmosphere of aquatic environment coexists.

Guests can enjoy experiences other than the usual water tank exhibition. The latest visual technology helps to achieve a realistic aquatic experience made possible by a “Fusion of reality and virtuality.” In addition to the “variety of spacious presentation”, open and spacious visual replications of seasons, time, and the beauty of nature will allow visitors to forget their physical presence in a commercial facility. An “Interactive experience” enables visitors to interact with different varieties of flora and fauna that are mostly native to the Okinawa region.

Aiming at a successful operation, DMM Kariyushi Aquarium is conceptualized as a facility to be enjoyed by both the local residents and tourists visiting Okinawa prefecture; preparations will continue to take place in anticipation of the opening in April 2020.
