DMM Kariyushi Aquarium Gains the Support of Tokyobus Co., Ltd. on “Coral Cultivation & Transplantation Program” and Lands in Okinawa with Buses

Japan (December 23th, 2020) – DMM RESORTS Co., Ltd. (“DMM RESORTS”) announces that it has signed a business partnership agreement with Tokyobus Co., Ltd. (Tokyobus) in supporting “Coral Cultivation & Transplantation Program” of DMM Kariyushi Aquarium. Meanwhile, a bus advertising campaign has hit the streets of Okinawa to promote DMM Kariyushi Aquarium.

Corals are among the most brilliant species in our exhibits. As part of our sustainable development goals (SDGs) project*, DMM Kariyushi Aquarium is dedicated to coral cultivation and transplantation. In addition to these activities, we also committed to ocean conservation, starting from the shores of Okinawa Prefecture to our invaluable oceans. Via the SDGs project, we promote the importance of ocean conservation and cultivate true partner relationships with different organizations supporting our causes to maximize the result of our project.

Tokyobus is partnering with DMM Kariyushi Aquarium to support our SDGs project. On the other hand, Tokyobus is working alongside DMM Kariyushi Aquarium on bus advertisement campaign promoting the aquarium. We make use of buses from Route TK02 (Umikaji Liner), bus route operated by Tokyobus, and turn them into DMM Kariyushi Aquarium buses. The Route

TK02 (Umikaji Liner) provides bus service between Naha Airport and DMM Kariyushi Aquarium from September 14th, 2020, Monday.

* Please refer to the [official website](#) for details of our SDGs project.

Design Concept

We turn our famous animals - Humboldt penguin and oriental small-clawed otter into charismatic characters, facing forward and moving (swimming) together with the bus. Featured by corals and swimming fishes in the ocean, the bus design showcases the excitement and expectation of visiting DMM Kariyushi Aquarium.
